

Shubham Kumar
B.Tech Computer Science Engineering (3rd Year)
India | 7870841473 | shubhamkm07@gmail.com
www.linkedin.com/in/shubham-kumar-05a9a5285 | <https://github.com/myselfshubham1>

Skills:

Languages: C, C++, Java, Python, SQL

Core CS: Data Structures & Algorithms, OOPs, DBMS, OS (basic)

Backend / Systems: C++ STL, File Handling, MySQL, REST APIs, Postman

AI / ML: NumPy, Pandas, Scikit-learn, YOLOv8

Web: HTML, CSS, JavaScript

Industrial Training – Software Development:

Intellige IT Studio

Blog Post Management System

Tech: Java, MySQL, HTML, CSS, REST APIs, Postman

- Completed industry-oriented software development training and developed a fully functional and deployable Blog Post Management System.
- Designed and implemented REST-based backend APIs for blog and user management.
- Supported full CRUD operations (create, update, search, delete).
- Implemented User and Admin roles with role-based access control
- Enabled tracking of creation and update timestamps for blogs.

Projects:

MCP Server – AI-Driven 3D Model Generation

Tech: Python, Socket Programming, Blender, Cursor AI

- Designed and implemented a **custom MCP server** using socket-based communication.
- Integrated **Blender & Cursor AI** to enable **3D object generation using natural language prompts**.
- **Built a scalable, real-time system capable of connecting multiple tools simultaneously.**
- Enabled full **customization and modification of 3D models** based on user input.

Object Detection using YOLOv8

Tech: Python, YOLOv8, OpenCV

- Developed a **real-time object detection system** using YOLOv8.
- Trained and evaluated the model on a dataset of **~10,000 images** to improve detection accuracy.
- Implemented live camera-based detection with high accuracy.
- Applied data preprocessing and model tuning techniques.

Achievements & Hackathons

- Winner in Hackathon conducted by ITM University
- Selected for final round of “FinShield” Hackathon conducted by Bank of India; presented solution at IIT Hyderabad
- Participated at Smart India Hackathon (SIH) and Actively in multiple inter-college hackathons

Mini Projects:

- To-Do Application, Chatbot, Calculator, Profile Calculator, Number Guessing Game

Education:

B.Tech – Computer Science Engineering
ITM University | 2023 – 2027
CGPA = 8.3
